

POSITIVE PROOF IN BEST FARM LOANS

"The proof of the pudding is in the eating." We make straight interest farm loans on better terms than any other concern, but practically all farmers who are posted prefer the amortization loan. Only last week in the bluegrass section of Kentucky, where money is cheap and plentiful, when it became known we were handling amortization farm loans we secured almost a quarter of a million dollars in applications in three counties on some of the highest priced farm lands in the south. The reason is simple. These farmers are posted on amortization. The amortization plan for centuries has been the only approved system in Europe. Today no private corporation, no progressive town, county, state or nation would make a long borrow on any other plan. The U. S. govern-

ment by law forbids farm loans to be made by the national farm board on any other basis. The amortization is the greatest financial scheme ever devised for long loans whether secured by bonds of a corporation, a state, a county, a city or section or by notes of an individual. The nation leading states by law require that all borrows made by the state or any subdivision of the state shall be on the amortization plan.

The commonwealth of Massachusetts, at a cost of millions of dollars, is undertaking to convert all her outstanding indebtedness to the amortization basis. It is as odd for a city or state now to borrow money on the old sinking fund system as it will be in a few years for

a farmer to borrow money on the straight interest plan.

Under our plan the individual farmer may secure his loan on the same principle as the borrowers of millions and on the same basis as the proposed rural credit loans, with no red tape and no uncertainty. It is simply a contract between the borrower and the lender with no responsibility and no intermeddling of other borrowers.

In the face of all these facts, it seems unreasonable for a borrowing farmer not to at least investigate the amortization proposition. An investigation will do no harm and may do much good.

Tenth Governor Impeached.

Governor James E. Ferguson, of Texas, who has been found guilty on impeachment proceedings, is the tenth governor to have been impeached.

The first was Seth Sothell, governor of the colony of North Carolina, whose impeachment was voted in 1689 and who immediately afterward was removed from office.

Charles Robinson, governor of Kansas, was impeached in 1862, but largely because of the fact that the civil war then in progress, as well as to some doubt of his guilt, he was acquitted.

The third was Harrison Reed, governor of Florida, who was impeached in 1868, the charges being dropped subsequently. William W. Holden was the second governor of North Carolina to be impeached, the action being taken against him in 1870. He was removed from office. Impeachment proceedings were brought against Powell Clayton, governor of Arkansas, in 1871, but the charges were dropped. In the same year Governor David Butler, of Nebraska, was impeached. He did not fare so well as Clayton, however, for he was removed by a decisive vote. In 1872 Governor Henry C. Varnoth, of Louisiana, was impeached but so dilatory was the legislature that the governor's term expired before the trial, whereupon the charges were dropped. Governor Adelbert Ames, of Mississippi, was impeached in 1876. Evidently he felt that the investigators "had the goods" on him, for he promptly resigned, saving the legislature the trouble of removing him.

The most notable impeachment proceedings involving the gubernatorial office was the action against Governor William Sulzer, of New York, in 1913. He was removed from office. —Evansville Courier.

FLYER GUYNEMER FOR MAYOR OF HOPKINSVILLE BELIEVED DEAD

Boy-Birdman Who Accounted for 50 German Machines.

Paris, Sept. 26.—Capt. George Guynemer, the famous French aviator, is believed to be dead.

Capt. Guynemer who attained world wide fame by his exploits, was perhaps the most brilliant aviator of the war. He was last cited in the official French announcement of Sept. 10 for having won his fiftieth aerial victory. An unofficial press dispatch a few days earlier said he had accounted for fifty-two enemy machines. He was 21 years old.

Captain Guynemer is thought to have been killed during a reconnaissance flight over Flanders on which he left Dunkirk September 11. Nothing has been heard of him since and it was assumed that he had been lost but not until tonight did army headquarters issue a confirmatory report.

Ernest Cravens, now at Camp Taylor, has passed with flying colors and is now Quartermaster Sergeant. He is the first of the Christian county boys to be promoted.

John R. Green, who is learning to be an officer at Fort Benjamin Harrison, writes to his former "boss," Henry Frankel, that he has gotten as far as digging trenches.
